VII.- INTERNAL AUDIT

The central objective of the Internal Audit Department is to provide the Grupo PRISA management and the Commission with reasonable assurance that the internal control systems and environment in place in the Group companies have been properly designed and managed.

Achieving this objective involves exercise of the functions assigned to that department, in particular:

- a. Evaluation of the adequacy of the internal control systems to contribute to greater effectiveness of the processes for managing and controlling the risks inherent in the activities pursued by Grupo PRISA companies.

The Internal Audit Department designs an Annual Plan based on identifying and assessing the risks inherent in the activities undertaken by the units of Grupo PRISA, in order to determine the priorities for internal audit activity.

Internal Audit's Annual Plan reflects the activities to be carried out by Internal Audit over the course of the year. That Plan, which is a part of the multiyear or strategic audit plan, specifies the activities and projects to be undertaken, the nature of the work and the resources of the Internal Audit Department assigned to each project.

The following are notable among the most significant projects undertaken by Internal Audit during the 2018 financial year:

IX.- PRACTICAL GUIDELINES

The Commission uses the CNMV Technical Guide 3/2017 on Audit Committees of Public-Interest Entities as basis for its functioning.

In addition, on a secondary basis, other guidance is taken into account, such as the recommendations regarding Audit Committees in the Code of Good Governance of Listed Companies of the CNMV.

X.- CONCLUSIONS

In addition to the duties envisaged in the relevant legislation and that rest with it under article 27.4 of the Board of Directors Regulation, the Commission has specific responsibilities to advise the Board of Directors and supervise and control the processes of preparing and reporting financial information, the independence of the statutory auditor and the effectiveness of the internal risk management and control systems, without prejudice to the responsibility of the Board of Directors.

The composition of the Commission facilitates performance of the tasks assigned to it, given the complementary fit of experience and technical expertise of its members, all of whom have distinguished professional careers.

Among the activities carried on by the Commission throughout the 2018 financial year, attention may be called to the review of the annual accounts for the 2017 financial year and the periodic public reporting in 2018 regarding the Company and Grupo PRISA, as well as the monitoring of the results of the evaluation of the system for internal control over financial reporting (ICFR) and the action plans of the model for prevention and detection of criminal wrongdoing.
